Because you CAN'T afford to be without power.

PENN POWER SYSTEMS
Power Generation Systems Specialists

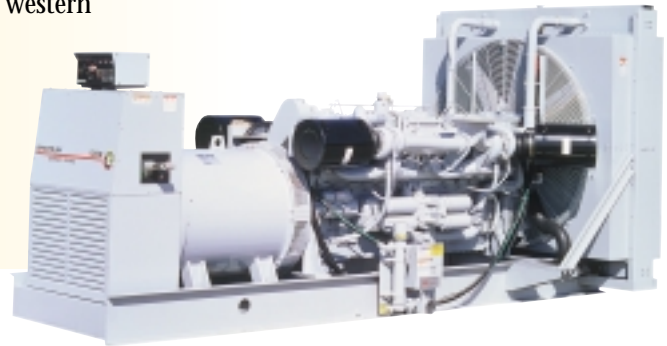

COMPLETE

Parts and Service

PROGRAMS

Penn Power Systems is a focused provider of standby and prime power electrical power generation systems. Selling and servicing power generation systems and equipment is our only business. Our reputation as a leader in the on-site power industry has been earned through hard work and extensive experience. As a master distributor for Detroit Diesel Spectrum, MTU, Atlas Copco, Coleman, Guascor, and Katolight we offer a comprehensive and complete range of quality equipment, controls, and accessories. **Penn Power Systems** offers 24/7 parts and services support throughout Pennsylvania, central and western New York, southern New Jersey, and northern Delaware.

Penn Power Systems offers highly qualified, factory- and industry-trained power systems field technicians. Our people have extensive experience in mechanical and electrical facets of on-site power systems. Capabilities and experience include:

- multiple locations throughout Pennsylvania and New York
- 24/7 emergency repair services
- extensive parts inventory for fast turnaround
- planned maintenance programs for generator sets and firepumps
- inspection and maintenance programs for controls, switchgear, electrical transformers, distribution gear, and UPS systems
- product support for all manufacturers equipment
- lube oil, fuel oil, and coolant analysis programs
- infra-red inspections and testing
- resistive and reactive load bank testing
- fully equipped and stocked maintenance and support vehicles
- testing and inspections to NFPA 77,99 110 and JCHAO standard

- diesel and gaseous fueled engines
- electrical generators and components
- cooling system troubleshooting and repairs
- electrical and electronic controls and components
- automatic transfer switches and generator switchgear
- engine fuel system diagnostics and repairs
- battery charging and starting systems
- engine exhaust systems
- fire pump engines and controls

*Don't get caught without power. To meet your power generation demands you need quick, reliable, competitively priced products and services. **Penn Power Systems** provides a complete inventory of parts backed by an extensive, factory-trained staff of service professionals ready to respond to all your service needs.*

*For a **FREE**, no obligation consultation, or information on our generator equipment, load bank testing, rentals and planned maintenance contract and non-contract repair services contact the location nearest you.*
