

# Power Generation Solutions

## ***EXCLUSIVELY from Penn Power Systems***

As a focused provider of standby and prime power electrical power generation systems, selling and servicing power generation systems and equipment is our **ONLY** business.

### ***Our capabilities include:***

- multiple locations throughout PA and NY
- 24/7 emergency repair services
- planned maintenance programs for generator sets and firepumps
- inspection and maintenance programs for controls, switchgear, electrical transformers, distribution gear, and UPS systems
- product support for all manufacturers equipment
- lube oil, fuel oil, and coolant analysis programs
- resistive and reactive load bank testing
- fully equipped and stocked maintenance and support vehicles
- testing and inspections to NFPA 77, 99 110 and JCHAO standard
