

POWER

For Rent

A complete line of portable, temporary power solutions anywhere electricity is required.

Because you CAN'T afford to be without power.

PENN POWER SYSTEMS
Power Generation Systems Specialists

POWER

For Rent

Penn Power Systems is a regional leader in providing temporary or alternative power for plant shutdowns, seasonal peak shaving, substation outages, transmission line and distribution system maintenance, and just about any other short term power need. Penn Power Systems offers high quality, state-of-the-art equipment for your temporary power requirements. Consistent investments in new equipment, controls, and cables provide our customers with reliable, safe, and environmentally sound equipment. Our inspection and maintenance processes assure you of power when and where you need it. We pride ourselves on rapid response during an emergency, as well as assisting our customers during ice storms, hurricanes, tornadoes, floods, and fire. We're also there for powering up concerts, sporting events, and other temporary power needs. We provide more than rental power. We provide powerful solutions.

- units available from 10KW to 2000KW
- long or short term rental options
- sound attenuated equipment
- multiple voltages up to 25KV
- complete systems and/or individual equipment
- 24-hour parts and service support

Don't get caught without power. To meet your temporary power generation demands you need quick, reliable, competitively priced products and services. Penn Power Systems provides complete equipment and turnkey installation capabilities, generating equipment, transfer switches, cable, transformers, rigging, interconnections and delivery.

For a free, no-obligation consultation, or information on our generator equipment, load bank testing and planned maintenance contract and non-contract repair services contact the location nearest you.
